- by Unknown

“when learning is harder, it’s stronger and lasts longer. ”

loc 153-153 | Tuesday, November 23, 2021 10:06:28 PM

““If you intend to remember something, you probably will.” ”

loc 189-189 | Wednesday, November 24, 2021 7:06:00 AM

“Mere repetition did not enhance learning. ”

loc 208-208 | Wednesday, November 24, 2021 7:08:55 AM

“rising familiarity with a text and fluency in reading it can create an illusion of mastery. ”

loc 231-232 | Thursday, November 25, 2021 7:37:31 AM

“The fact that you can repeat the phrases in a text or your lecture notes is no indication that you understand the significance of the precepts they describe, their application, or how they relate to what you already know about the subject. ”

loc 235-236 | Thursday, November 25, 2021 7:42:53 AM

“The illusion of mastery is an example of poor metacognition: ”

loc 245-246 | Thursday, November 25, 2021 7:46:39 AM

““There are known knowns; there are things we know that we know. There are known unknowns; that is to say, there are things that we now know we don’t know. But there are also unknown unknowns—there are things we do not know we don’t know.” ”

loc 248-250 | Thursday, November 25, 2021 10:09:55 AM

“The upshot is that even the most diligent students are often hobbled by two liabilities: a failure to know the areas where their learning is weak— that is, where they need to do more work to bring up their knowledge— and a preference for study methods that create a false sense of mastery.¹¹ ”

loc 255-257 | Thursday, November 25, 2021 10:11:02 AM

““creativity is more important than knowledge,” ”

loc 258-258 | Thursday, November 25, 2021 10:11:23 AM

“Mastery requires both the possession of ready knowledge and the conceptual understanding of how to use it. ”

loc 271-272 | Thursday, November 25, 2021 10:13:33 AM

“Mastery in any field, from cooking to chess to brain surgery, is a gradual accretion of knowledge, conceptual understanding, judgment, and skill. ”

loc 267-268 | Saturday, December 11, 2021 6:16:13 PM

“One of the most striking research findings is the power of active retrieval—testing—to strengthen memory, and that the more effortful the retrieval, the stronger the benefit. ”

loc 283-284 | Saturday, December 11, 2021 6:50:16 PM

““generation effect.” The modest effort required to generate the cued answer while studying the pairs strengthened memory of the target word tested later (shoe). ”

loc 426-427 | Sunday, December 12, 2021 10:46:26 AM

“the greater effort required by the delayed recall solidified the memory better. ”

loc 429-430 | Sunday, December 12, 2021 10:49:34 AM

“It’s not just what you know, but how you practice what you know that determines how well the learning serves you later ”

loc 728-729 | Sunday, December 12, 2021 4:35:08 PM

“How big an interval, you ask? The simple answer: enough so that practice doesn’t become a mindless repetition. ”

loc 802-803 | Wednesday, January 5, 2022 4:30:54 PM

“A little forgetting between practice sessions can be a good thing, if it leads to more effort in practice, but you do not want so much forgetting that retrieval essentially involves relearning the material. ”

loc 804-805 | Wednesday, January 5, 2022 4:31:10 PM

“Beware of the familiarity trap : the feeling that you know something and no longer need to practice it. ”

loc 814-814 | Wednesday, January 5, 2022 5:20:57 PM

“Interleaving two or more subjects during practice also provides a form of spacing. ”

loc 819-820 | Wednesday, January 5, 2022 5:23:08 PM

“In interleaving, you don’t move from a complete practice set of one topic to go to another. You switch before each practice is complete. ”

loc 821-822 | Wednesday, January 5, 2022 5:23:31 PM

“Like interleaving, varied practice helps learners build a broad schema, an ability to assess changing conditions and adjust responses to fit. Arguably, interleaving and variation help learners reach beyond memorization to higher levels of conceptual learning and application, building more rounded, deep, and durable learning, what in motor skills shows up as underlying habit strength. ”

loc 828-830 | Wednesday, January 5, 2022 5:23:51 PM

“This process of converting sensory perceptions into meaningful representations in the brain is still not perfectly understood. We call the process encoding, and we call the new representations within the brain memory traces. ”

loc 909-911 | Wednesday, January 5, 2022 5:32:57 PM

“Prior knowledge is a prerequisite for making sense of new learning, and forming those connections is an important task of consolidation. ”

loc 919-920 | Wednesday, January 5, 2022 5:34:15 PM

“the act of retrieving a memory from long- term storage can both strengthen the memory traces and at the same time make them modifiable again, enabling them, for example, to connect to more recent learning. ”

loc 929-931 | Wednesday, January 5, 2022 5:37:02 PM

“the act of retrieving a memory from long- term storage can both strengthen the memory traces and at the same time make them modifiable again, enabling them, for example, to connect to more recent learning. This process is called reconsolidation. ”

loc 929-931 | Wednesday, January 5, 2022 5:37:20 PM

“Learning, remembering, and forgetting work together in interesting ways. ”

loc 941-941 | Wednesday, January 5, 2022 5:40:36 PM

“Retrival using recall two steps ”

loc 943 | Wednesday, January 5, 2022 5:42:09 PM

“Durable, robust learning requires that we do two things. First, as we recode and consolidate new material from short- term memory into long- term memory, we must anchor it there securely. Second, we must associate the material with a diverse set of cues that will make us adept at recalling the knowledge later. ”

loc 941-943 | Wednesday, January 5, 2022 5:42:09 PM

“Knowledge is more durable if it’s deeply entrenched, ”

loc 965-966 | Wednesday, January 5, 2022 5:47:03 PM

“Psychologists have uncovered a curious inverse relationship between the ease of retrieval practice and the power of that practice to entrench learning: ”

loc 999-1000 | Thursday, January 6, 2022 5:56:22 AM

“the easier knowledge or a skill is for you to retrieve, the less your retrieval practice will benefit your retention of it. ”

loc 1000-1000 | Thursday, January 6, 2022 5:56:29 AM

“spacing, interleaving, and mixing up practice— will feel less productive at the time but will more than compensate for that by making the learning stronger, precise, and enduring. ”

loc 1021-1022 | Thursday, January 6, 2022 6:00:24 AM

“our judgments of what learning strategies work best for us are often mistaken, colored by illusions of mastery. ”

loc 1022-1023 | Thursday, January 6, 2022 6:00:34 AM

“Massed practice gives us the warm sensation of mastery because we’re looping information through short- term memory without having to reconstruct the learning from longterm memory. ”

loc 1039-1040 | Thursday, January 6, 2022 6:03:32 AM

“The difficulty produced by interleaving provides a second type of boost to learning. ”

loc 1070-1070 | Thursday, January 6, 2022 6:09:28 AM

“The act of taking a few minutes to review what has been learned from an experience (or in a recent class) and asking yourself questions is known as reflection. ”

loc 1112-1113 | Thursday, January 6, 2022 6:24:07 AM

“retrieval from short- term memory is an in effec tive learning strategy and that errors are an integral part of striving to increase one’s mastery over new material. ”

loc 1136-1137 | Thursday, January 6, 2022 6:26:40 AM

“A fear of failure can poison learning by creating aversions to the kinds of experimentation and risk taking that characterize striving, or by diminishing per for mance under pressure, as in a test setting. ”

loc 1146-1147 | Thursday, January 6, 2022 6:29:23 AM

“the risk of knowing what you’re getting into is that it becomes an overwhelming obstacle to getting started.”¹⁸ ”

loc 1195-1195 | Thursday, January 6, 2022 6:35:54 AM

“difficulties are desirable because “they trigger encoding and retrieval pro cesses that support learning, comprehension, and remembering. ”

loc 1242-1243 | Thursday, January 6, 2022 6:41:43 AM

“difficulties are desirable because “they trigger encoding and retrieval pro cesses that support learning, comprehension, and remembering. If, however, the learner does not have the background knowledge or skills to respond to them successfully, they become undesirable difficulties.” ”

loc 1242-1244 | Thursday, January 6, 2022 6:41:55 AM

“Learning is at least a three- step pro cess: initial encoding of information is held in short- term working memory before being consolidated into a cohesive repre sen ta tion of knowledge in long- term memory. Consolidation reorganizes and stabilizes memory traces, gives them meaning, and makes connections to past experiences and to other knowledge already stored in long- term memory. ”

loc 1259-1261 | Thursday, January 6, 2022 6:44:00 AM

“Periodic retrieval of learning helps strengthen connections to the memory and the cues for recalling it, ”

loc 1266-1267 | Thursday, January 6, 2022 6:45:28 AM

“Retrieval practice that’s easy does little to strengthen learning; the more difficult the practice, the greater the benefit. ”

loc 1267-1268 | Thursday, January 6, 2022 6:45:40 AM

“when learning is harder, it’s stronger and lasts longer. ”

loc 153-153 | Tuesday, November 23, 2021 10:06:28 PM

““If you intend to remember something, you probably will.” ”

loc 189-189 | Wednesday, November 24, 2021 7:06:00 AM

“Mere repetition did not enhance learning. ”

loc 208-208 | Wednesday, November 24, 2021 7:08:55 AM

“rising familiarity with a text and fluency in reading it can create an illusion of mastery. ”

loc 231-232 | Thursday, November 25, 2021 7:37:31 AM

“The fact that you can repeat the phrases in a text or your lecture notes is no indication that you understand the significance of the precepts they describe, their application, or how they relate to what you already know about the subject. ”

loc 235-236 | Thursday, November 25, 2021 7:42:53 AM

“The illusion of mastery is an example of poor metacognition: ”

loc 245-246 | Thursday, November 25, 2021 7:46:39 AM

““There are known knowns; there are things we know that we know. There are known unknowns; that is to say, there are things that we now know we don’t know. But there are also unknown unknowns—there are things we do not know we don’t know.” ”
